

Conferences, Workshops and Short Courses of Interest

Battlespace Engineering

March 1998 - March 1999

An Abbreviated Listing

Prepared by

**NAWCWPNS Technical Library Staff
Code 4BL000D**

24 February 1998

This is not intended to be a comprehensive listing of upcoming conferences, workshops and short courses, but rather a guide to those that may be of interest to NAWCWPNS personnel supporting the Center's strategic thrusts and initiatives.

The abbreviated listing outlines conference dates, titles, location, contacts, as well as any known NAWCWPNS contributors. The abbreviated listing is drawn from the in-depth listing available at the Technical Library, which outlines session topics and papers to be presented for many of the events.

For further information on any or all of the events listed, please contact Robin Daly (Boeing) at the Technical Library, Code 4BL000D, 927-3661, DSN 469-3661.
